*** Unit 3 & 4 subjects available are Biology, Business Management, Chemistry, Food Studies, Health and Human Development, Legal Studies, Physical Education, Physics and Psychology.

You asked and we delivered.

Available now is the VCE Challenge App for schools.

Our new and exciting app gamifies education and makes Unit 3 & 4 VCE revision fun! And now schools are able to purchase it exclusively for their students.

Available to individual students since 2017, the VCE Challenge has proven to be a great way for students to revise.

The original idea behind the app was for students to quickly and easily revise anywhere while they compared their performance with other students outside of their school.

Many teachers have since requested that the app be made available to their school exclusively so that they could have full access to the back end of the app and track each of their students usage and performance.

Purchase one or all of the subjects available and your school will be given a one year licence to access the platform QuitCh pre-populated with all of the subject specific multiple choice questions and answers. You are immediately ready to get your students on and playing.

Available now — Provide your students with access to almost 200 questions that will remain on their devices up until exam day.
